

Advance Rehabilitation PHYSICAL THERAPY CLINICS

Advance Rehabilitation specializes in physical, occupational and speech therapies, on-field athletic training and sports medicine. Prior to working with AXIA, the chain had no unified brand identity across the 20 markets it served. To meet this challenge, AXIA developed a Web site and a brand identity system for Advance Rehabilitation, including letterhead, envelopes, business cards, referral pads and more. The new materials help raise awareness for the growing company.

“Our bright new colors have been noticed by clients and competitors alike. People are talking about Advance Rehabilitation.”
